

## Calling Young Leaders!

Ready to use your experience to help others?

Consider joining Partners for StrongMinds' **National Youth Leadership Board (NYLB)**, a team of teens and 20-somethings who are using their voices and perspectives to reach more young people with a message of hope and recovery.

NYLB members volunteer 2-4 hours per month in a variety of ways, gaining valuable experience and the opportunity to make an impact for young people navigating psychosis for the first time. Opportunities include:

- Share your story on our blog and other venues (written or video).
- Write or curate content for our blog and social channels.
- Advise on content and strategy for our public education campaign.
- Engage in mental health policy research to inspire change.
- Champion psychosis recovery in your community.

To apply for NYLB membership, **please send a short description** (500 words or less) to [info@partners4strongminds.org](mailto:info@partners4strongminds.org) introducing yourself and sharing why and in what way(s) you would like to contribute. Members will be selected to serve a 1-year renewable term.

**Membership can be anonymous if preferred.** Learn more at [www.partners4strongminds.org](http://www.partners4strongminds.org).
